Churner and Churner has announced the gallery's inaugural exhibition: **No Man's Land** by Joianne Bittle. "No Man's Land" brings together two series of Bittle's work: a recently completed group of paintings of jackrabbits and the first of a series of portable dioramas. As a professional diorama maker for the American Museum of Natural History, Bittle works with a technical precision honed through years of adherence to the convention of her craft.
